## Career Opportunities

This **Associate Degree or Certificate of Achievement** is a two-year program leading to the Associate in Science (A.S.) degree. It is designed to prepare students for employment in a variety of computer related fields. Students wishing a bachelor's degree (transfer program) should meet with a counselor to discuss transferability of courses.

## Program Mission and Outcomes

The mission of the Computer Security and Networking curriculum is to skillfully train students by providing strategically designed courses to meet their academic, transferable, and career needs.
