Program Description

The Electrical Technology, General Industrial Electrician Certificate of Achievement will prepare students for entry-level employment in the electrical maintenance and troubleshooting industry. Upon completion the student will be able to install, maintain, and repair electrical systems in a safe and workmanlike manner.

- Develop procedures for the successful installation, maintenance and troubleshooting of electrical systems.

New students must attend an Electrical orientation prior to enrollment. The program requisite is in place to ensure the safety and health awareness of LBCC electrical students.
