

INTERIOR DESIGN - ASSOCIATE IN SCIENCE

Plan Code: 292

This field of concentration is designed to provide foundational knowledge of the practice of interior design with the option of maximizing the number of lower-division transfer units. This Associate Degree will prepare students for an interior design-related career, and appropriate course selection will facilitate transfer to a professional degree program.

Program Student Learning Outcomes

- Demonstrate the ability to attain the Institutional Student Learning Outcomes (ISLOs).
- Understand methodologies for specifying furniture, fixtures, equipment and finish materials in interior spaces.

Program Requirements

This degree requires the completion of General Education coursework plus the following:

Course Number	Course Title	Units
ARCHT 20
