

Annual Financial and Budget Report

Fiscal Year 2017-2018

The table contains multiple columns and rows of data, but the content is largely illegible due to severe digital corruption. The structure appears to be a standard financial report table with several columns and many rows of data points.

This table is located at the bottom of the page and contains fewer rows and columns than the main table above. It also appears to be a continuation of financial data, but the text is too distorted to read accurately.
