

# Digital Program Roadmaps

## THE APPROACH

The first Pillar of guided pathways is “Clarify the Path”

## WHAT THEY'RE DOING

## WHAT THEY'RE LEARNING

The Mapper team continues to refine the process. Working with the Curriculum Committee, roadmap templates are submitted by faculty when proposing new awards or modifying existing ones. Faculty also will review existing awards through the Department Planning/Program Review process. As the Pathways Program Mapper continues to be implemented, faculty will have the opportunity to modify their sequenced courses, if needed. The Program Mapper is an excellent tool to help with enrollment management and course scheduling. Contact [paths@lbcc.edu](mailto:paths@lbcc.edu) for more information.
